

Attention North Oakland County Landowners!

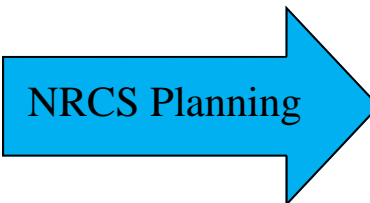

Special conservation programs are available in your area!

⇒ Address natural resource concerns

⇒ Achieve specific objectives for your farm or natural wildlife areas

This voluntary based conservation program provides...

- Free technical assistance to develop a custom plan and identify conservation practices that meet your resource objectives!
- Financial assistance available to help 'cost share' these practices!

Benefits Can Include....

- Protection from environmental liability.
- Preserving natural resources and farming traditions for future generations.
- Improved productivity.
- Reduced operational cost.
